	The facility's medical team failed to follow-up on a recommendation for a medication change and abdominal ultrasound for Resident #1's, as follows;							
	and abdominal ultrasound for Resident #1's, as follows:  a. On 5/21/2010, at approximately 3:20 p.m. a review of resident #1 medical record revealed a GI consult dated 1/30/08,. According to the consult, resident #1 was seen for a follow up colonoscopy for Crohn disease diagnoses, At that time, the GI specialist prescribed Miralax powder 1 dose, by mouth every PM as needed, for constipation. Review of the physician orders sheets on May 21, 2010 at 2:20 p.m., however falled to evidence that the prescribed medication had been ordered. Interview conducted with the Program Coordinator on 5/21/2010 at 3:30 p.m., revealed he was unaware of the order for Miralax powder. He further indicated that the Register nurse (RN) would be informed for Immediate action.  b. On 6/30/09, Resident #1 was sent to the Emergency room (ER) for abdominal pain. Review of the ER discharge summary revealed the resident was diagnosed with "cholelithiasis-non OBS." On 1/21/2010, resident #1 was seen by the GI specialist for gallstone assessment, recommending that a follow-up abdominal ultrasound be ordered, to assess status of gallstones. Interview conducted with the Program coordinator at 3:30 p.m. on the same day, revealed to his knowledge the				NCC obtained PCP order for Miral 6/3/2010 as stated in the March 20 physician's notes. The order is an counter medication for complaints occasional constipation.  The Program Coordinator and nurs on a regular basis to review all meconsults and physician's notes/ordensure that all physician's orders a upon in a timely manner.  Resident #1 will have a follow up a ultrasound completed to assess the gallstones on June 8, 2010.	over-the- of  se will meet dical ers to re acted	6/8/2010

l 391	Continued From page 4 recommendation for a maxillary palate biopsy as follows: On 5/21/2010, at approximately 3:35 p.m., a review of resident #3's 6/3/09, dental consult was completed. The consult findings revealed a medium size erythematous patch on his anterior palate, which may need a biopsy. On 1/20/2010, resident #3 returned to the dentist as recommended for a follow up assessment. The dentist recommended that a biopsy of anterior maxillary palate was needed and would require a signed consent. Interview conducted with the Program Coordinator on the same day and time, revealed the recommended palate biopsy had not been performed due to no consent. Reportedly, resident #3's guardian had passed away. Further interview and record review revealed documentation completed by the program coordinator to resident #3's service coordinator requesting assistance in obtaining a guardian and consent. However to date, (5 months later), the GHMRP had not heard back on the status of their request for a guardian, nor had consent been obtained.			1 391	An Emergency Case Conference scheduled with DDS Service Conduction DDS Supervisor of Service Conduction medical consent.
